

UL Approvals

A large number of Peters products have undergone extensive testing by UL (Underwriters Laboratories), a test laboratory headquartered in Illinois, USA.

After successful testing, the products receive the UL marking. To access a listing of the individual products and additional information on test conditions and test results, you may [register](#) free of charge.

Depending on the type of product certified, it is assigned to one of the three UL Files listed below. Please consider the footnotes, too.

[QMJU2.E80315](#)

Coatings for Use on Recognized Printed Wiring Boards – Component:
